

## VOLKSWAGEN BEETLE DUNE BUMPER FASCIA

SOLUTION STORY: AUTOMOTIVE EXTERIORS

### HIGHLIGHTS

- SABIC® PPcompound 7451B
- High flow
- Weight reduction
- Impact resistance
- Cost savings

### SHORT STORY

This bumper fascia molded with SABIC® PPcompound (PPc) 7451B provides up to 50 percent improved flow vs. the previous incumbent material. This high flow allows for a reduced wall thickness and for improved stiffness, aesthetics, and cold-temperature impact performance. In addition, improved paint adhesion results in a significant decrease in the scrap rate, providing cost savings.
